Descriptions for Monuments in Sections 4, 5, 8, 9, 10 and 11. T22N-R26W

From the cor. of secs. 4, 5, 8 and 9, prev. H. 0°17' L., bet. secs. 4 and 5.

Over high broken hills.

39.85 The proportionate distance, I set an iron post, 3 ft. long,

Chains.

l in. dia., two feet in the ground in cement base. 8x8x6 ins., for the reestablished 1/4 sec. cor., and mark on top of brass cap.

S 4 on E., and S 5 1/4 on W., half of cap; dig pits, 20x20x15 ins., N. & S. of post, 7 ft. dist.; and raise a mound of earth, 4 ft. base, 2 ft. high, around cor. E ¼ COR. SEC. 5

From the cor. of secs. 5, 6, 7 and 8, prev.

N. 0°24' E., bet. secs. 5 and 6.

Over high broken hills.

39.87 The proportionate distance, I set an iron post, 3 ft. long, 1 in. dia., two feet in the ground in cement base, 8x8x6 ins., for the reestablished 1/4 sec. cor., and mark on top of brass cap, S 5 on E., and

S 6 1/4 on W., half of cap; dig pits, 20x20x15 ins., N. & S. of post, 7 ft. dist.; and raise a mound of earth, 4 ft. base, 2 ft. high, around cor. W ¼ COR. SEC. 5

```
79.73 The proportionate distance. I set an iron post, 3 ft. long, 2 ins. dia., two feet in the ground in coment base, 8x8x6 ins., for the reestablished cor. of secs. 7, 8,
                         17 and 18, and mark on top of brass cap.
R 26 W S 8 in HE.,
                                       S 17 in SE.,
                        S 17 in SE.,
S 18 in SW., and
T 22 N S 7 in NW., quadrant of cap; dig pits,
20x20x15 ins., in each sec., 7 ft. dist.; and raise a
mound of earth, 6 ft. base, 2 ft. high, around cor.
                                                                                                                                                                          SW COR.
                                                                                                                                                                             SEC. 8
               Land, high broken hills.
Soil, sandy; 4th rate.
               Ho timber.
               S. 89°41' E., bet. secs. 8 and 17.
39.80 The proportionate distance, I set an iron post, 3 ft. long, lim. dis., two feet in the ground in cement base, 8x8x6 ins., for the reestablished 1/4 sec. cor., and
                                                                                                                                                                           S ¼ COR.
                      mark on top of brass cap.

S 8 1/4 on N., and

S 17 on S., half of cap; dig pits, 20x20x15 ins.,
E. & W. of post, 7 ft. dist.; and raise a mound of earth, 4 ft. base, 2 ft. high, around cor.
                                                                                                                                                                              SEC. 8
79.69 The proportionate distance, I sot an iron post, 3 ft. long,
                      2 ins. dia., two feet in the ground in cement base, 8x8x6 ins., for the reestablished cor. of secs. 8, 9, 16 and 17, and mark on top of brass cap,

R 26 W S 9 in NE.,
                      S 16 in SE.,
S 17 in SW., and
T 22 N S 8 in MW., quadrant of cap; dig pits,
20x20x15 ins., in each sec., 7 ft. dist.; and raise a
mound of earth, 6 ft. base, 2 ft. high, around cor.
                                                                                                                                                                      SE COR.
                                                                                                                                                                         SEC. 8
                                        From the cor. of secs. 8, 9, 16 and 17, prov.
                  described,
N. 0022' W., bet. secs. 8 and 9.
                  Over high broken hills.
    39.84 The proportionate distance, I set an iron post, 3 ft. long, lin. dis., two feet in the ground in cement base, 8x8x6 ins., for the reestablished 1/4 sec. cor., and
                         mark on top of bress cap.

S 9 on E., and
S 8 1/4 on W., half of cap; dig pits, 20x20x15
ins., N. & S. of post, 7 ft. dist.; and raise a mound
of earth, 4 ft. base, 2 ft. high, around cor.
                                                                                                                                                                    E ¼ COR.
                                                                                                                                                                       SEC. 8
  Thence I continue bet. secs. 8 and 9.
The proportionate distance, I set an iron post, 3 ft. long, 8x8x6 ins., for the reestablished cor. of secs. 4, 5, R 26 W S 4 in HE.,
